# Going for Gold

作文號:1417905, 截止時間: 2019-09-05 23:59

作文要求:

請依據下面所提供的文字提示寫一篇英文作文，長度約一百二十字（8至12個句子，評分重點包括內容、組織、文法、用字遣詞、標點符號、大小寫。）

提示:

請寫一篇文章說明社群網站（Facebook）為何大受歡迎，以及臉書所造成的影響。

範文:Millions of people today use Facebook, the well-known social networking website. It quickly became popular because it is free to use. It offers people a way to keep in touch with family and friends. It also has many features that are very valuable to users. However, for all of the wonderful things people can do with Facebook, there is a downside to it. People can be addicted to it, resulting in less face-to-face interaction with other people. Another problem is that Facebook posts can get people in trouble. If personal information is not closely guarded, a user's privacy can be violated. Facebook has changed the way people interact with each other in modern society. Its many effects are felt by users all over the world.

Facebook is well-known for its convenience that the users around the whole globe can see how their friends are, as long as they post, from any corner of the world, whenever the users log in. Also, the widely applied usage of Facebook allows users to easily get in touch with their long-missing friends, or even people who are acquaintances only, on Facebook. Further, users can post their fascinating photos, articles or even videos on Facebook so that their friends, or only the specific groups of users set by the original poster, can see what the poster feels like sharing with them. To conclude, all the above-mentioned factors make people worldwide crazy about Facebook. Please, come to enjoy Facebook with your friends all around the world!

作文总评:

語句間的連接成分用的不錯，文章中的轉折詞也很豐富；作者句法基礎較為扎實；文中詞彙表達準確，高級詞彙表達靈活。

People use Facebook because it has become more popular. It is not a new community website, but one of the most popular websites. Not only teenagers but also grand parents use their account to interact with their grandsons even their high-school classmates. It seems really convenient to us and the most important is that it doesn't cost you any money. However, this website brings few problems to us, like people rely on the Internet because they want to keep refreshing to catch up other's status. There is a serious problem, imagining that your kids use their cellphones on the dining table and ignore others, it is very impolite right?
